STANLEY'S MOVEMENTS.

As He Relates Them to the Arab, Tippoo Tib.

The Explorer A.H. Right Up to the Middle of August, And Meandering About Somewhere in the Wilds of Africa, and in Good Health.

BAUER, Jan. 16.—The following letter, written by Henry M. Stanley, has been received in this city:

ROMA OF HONALTA, MURUTIA, AUG. 17.

SHEIKH HAMED-IBN-MAHOMED.—From his good friend, Henry M. Stanley. Many salutations to you. I hope that you are in good health as I am, and that you have remained in good health since I left the Congo. I have much to say to you, but I hope I shall see you face to face before many days.

I reached here this morning with one hundred and thirty Wangs, three soldiers and a sixty-six native belonging to Emin Pasha. It is now eighty-two days since I left Emin Pasha on the Nyansa. I only lost three men all the way. Two were drowned and the other decamped. I found the white men who were looking for Emin Pasha quite well. The other white men, Cassin, he is also well. Emin Pasha has ivory in abundance, thousands of cattle and sheep, goats and fowls and foot of all kinds. I found him a very good and kind man. He gave all our white and black men numbers of things. His liberality could not be exceeded. His soldiers blessed our journey so far to show them the way. Many of them were ready to follow me out of the country, but I asked them to stay quiet a few months that I might return and fetch the other men and goods left at Yambunga. They prayed to God that He would give me strength to finish my work. May their prayer be heard. And now, my friend, what are you going to do? We have gone the road twice over. We know where it is and where it goes, where there is plenty of food and where there is none, where all the camels are and where we shall sleep and rest. I am waiting to see you. If you go with me, it will be well. I have it to you. I will stay here ten days and will then proceed slowly. I will move home to the island, two hours' march from here about this place. There are plenty of houses there, and plenty of food for the men. Whatever you have to say to me, my ears will be open, with a good will, as it has been from the start. Therefore, if you come, come quickly, for on the eleventh morning from this I shall move on. All my white men are well, but I left them all behind except my servant William, who is with me.

HENRY M. STANLEY.

Sheik Hamed-ibn-Mahomed, who is the Arab Tippoo Tib. The letter, which was taken to Stanley Falls by a messenger, and which reached Brussels by post last night, is the only one from Stanley that has reached the coast of Africa. A number of other letters which the messenger carried to Stanley Falls still remain there, but it is expected that they will arrive in Europe in two or three months.

THE EARTHQUAKE'S POWER.

Costa Rica Gets Another Taste of It a Few Months Ago.

CHICAGO, Jan. 16.—Late advices from Costa Rica regarding the earthquake of December 29 last, mentioned in the cable dispatches a short time ago, say the shock was the most severe experienced since 1822. In San Jose both the national capitol and the magnificent cathedral fronting the public square, which required ten years of labor to erect, at an expenditure of \$1,000,000, are in ruins. The Presidential palace, city hall, national post-office and a dozen other noble buildings were almost wrecked. Advices from surrounding cities report the shock even more severe, and bring accounts of loss of both life and property. The latest estimate of the damage throughout the country exceeds \$8,000,000. The Pons volcano has suddenly become active. It is located twenty-eight miles north of this place, at an altitude of 8,800 feet above the sea. It had been sleeping for years, and only a couple of weeks before the earthquake a party of explorers, after a visit there, reported the crater entirely filled up. Now it has broken out with all its force, and is sending up a mile distant from the original point. An average of three slight shocks was felt daily for several days after the first. Business during that time was almost entirely suspended, and the majority of the people in San Jose camped in the public squares, fearing their houses would fall.

John L. on a Hip-Reaver.

BOSTON, Jan. 16.—Sullivan was drunk yesterday, and there's no as denying it, although denials will undoubtedly be made. It was only a day or two ago that John told how well he was and how he proposed to do to bring himself into condition to fight Kilrain. Straps as Fatal Fire.

PITTSBURGH, Pa., Jan. 16.—A very mysterious fire occurred on the South Side early this morning, and a woman and child were badly burned. About 1:30 a. m. a policeman noticed a slight blaze in the second story of a house occupied by Arthur Roddey, at No. 114 Chestnut street. An alarm was turned in, and the fire was extinguished with but little damage. When the firemen entered the room they found Mrs. Roddey and her child lying on a couch, which was in flames. The woman's body was burned to a crisp, and the child was painfully but not seriously injured. The origin of the fire is unknown.

IT RESTS WITH CONGRESS.

What Hazard Has to Say About a War With Germany.

New York, Jan. 17.—The Herald's Washington special, the Secretary Bayard, speaking with a friend a few days ago regarding the attack made upon him for permitting the Germans to occupy Samoa, said: "The State Department has done all that it can do in regard to Samoa. All the correspondence with Germany in relation to this question, including the alleged abuse of the American residents in the island, is now in possession of Congress. Some of it was sent there more than a year ago. Any further action must necessarily come from Congress. The American consul several months ago made a request for a man-of-war, and Secretary Whitney kept one there permanently, as he had done at Honolulu upon a similar request. I understand that the Treaty, now at Panama, has been ordered to Samoa to reinforce the Nipile, but neither ship would dare take any overt action, no matter what the Germans may do to the islanders. Under Section 12, Article I, of the Constitution, the right to declare war is vested entirely in Congress. They are as fully cognizant of the situation as the State Department, and Senator Frye knew a year ago just as much as he does now. If war with Germany is desired it must be so declared by Congress. We have done the better that it is possible for an Executive Department. American residents there will be simply protected, but when it comes to a contact with the forces of a friendly nation the matter assumes a different aspect. What the Germans will do with the natives of Samoa, and our relations to Germany in the same connection, are matters that require considerable diplomatic delicacy, and can only be settled through diplomatic channels; unless, as I have said, Congress decides to interfere to the extent of declaring war."

ESCAPE CUT OFF.

Thrilling Scenes About a Blazing St. Paul Building.

Many Employees Injured by Jumping—Narrow Escapes From Death.

St. Paul, Minn., Jan. 18.—At a quarter past three o'clock this afternoon fire was discovered in the basement of the four-story general office building of the Chicago, St. Paul, Minneapolis and Omaha railroad, on the corner of Fourth and Wakarusa streets. Before warning could be given, even to the firemen, the flames had reached the stairway in the central part of the building, and the halls were filled with smoke, so that the only avenue of escape was through the windows. The one hundred or more employees on the second, third and fourth floors were also cut off from escape by the fire, and the flames could not pass the railroad authorities' escape route to the river, more than one-half of whom were drowned before assistance could reach them. A slight retrostep in the flames, however, had been made, and the completion of the bridge, about ten days since, there has been trouble between the contractors and the railroad as to the terms of the contract and payment for the work. Last week the first L. St. L. & T. train advertised that it would make its maiden trip to Headerson, but when it reached Spottsville it found the draw thrown open, by order of the contractors, and the train could not pass. The railroad authorities' escape route to the river was cut off, and an injunction was granted against further interference with the traffic of the road until the full equities of the case had been decided. This decision was rendered yesterday, granting the temporary injunction, and the road resumed its normal condition. The train would not start until this afternoon. It seems that the men, to the number of about forty, and acting under instructions from the contractors, had gathered upon the draw, and placed upon each end of it a number of heavy rails, intending to obstruct the train in this way tomorrow, and not to violate the court's injunction by opening the draw. Just before four o'clock this afternoon the Bowling Green packet "General Daves," bound for this city, whistled for the draw to be opened, that it might pass. The contractors, however, refused to open it, and while all of the contractors' men were still standing upon the ponderous draw, it swung open, and the steamer passed into the opening. But just as the keel beneath the bridge, there was a dull, strange creaking, which came from the ponderous draw, and the men upon it saw the bridge break into two parts, immediately over the center of the pier upon which it rested, and both wings, with their weight of iron and human beings, plunged downward, a distance of forty feet, and in an instant struck the surface of the river. The shock was so great that the men and the unfortunate had their limbs and necks broken before the draw reached the water, and all blew through downward upon the iron track and beams, or entangled in its debris, were borne down, never to rise again.

More Than Twenty Men Hurled to a Horrible Death by the Breaking of a Draw Bridge Near Spottsville, Ky.

SPOTTSVILLE, TENN., Jan. 20.—The difficulties between the bridge contractors at Spottsville, Ky., and the Louisville, St. Louis and Texas railroad had a most tragic termination this afternoon at 4 o'clock, when the draw broke in twain, precipitating about forty employees into the river, more than one-half of whom were drowned before assistance could reach them. A slight retrostep in the flames, however, had been made, and the completion of the bridge, about ten days since, there has been trouble between the contractors and the railroad as to the terms of the contract and payment for the work. The contract for placing a cross-jog on Madison street at R. T. Burns' residence was let a few days ago to Henry Diamond.

The trial of Samp Smith, for assisting in the murder of the Hammond's, is now occupying the time and attention of the Court.

This is exceedingly pleasant weather we are having now, but we fear it will turn out that this winter and next spring have exchanged places, so far as the weather is concerned.

The evidence in the case against Samp Smith has all been heard and argument began this morning.

The evidence is quite strong against the defendant, and it is thought the verdict of the jury will be accompanied by a heavy sentence.

The new school building will be an ornament and recommendation for our town. Good school-houses and churches in a town speak well to strangers.

We are very sorry to learn that Dr. Cease is contemplating a change of location from this place to Greenville. Those needing work in the dentistry line should call on him at once.

"White Cap" warnings were on last Tuesday morning found addressed to a number of persons in Louisa, admonishing them to mend their ways and go to work. It remains to be seen whether or not the notices are genuine and mean business.

Mr. J. W. Rice drew \$250 at the January drawing of the Louisiana State Lottery. He held a one-twentieth ticket corresponding to a number drawing a \$5,000 prize. The report last week that a clerk at this place had drawn \$15,000 was a "mistake." It drew \$15.

The correspondent who wrote the communication from Emma last week did a very uncommendable act in stating that Mr. D. W. Webb, of Glenwood, had become insane. We have just learned that there is no foundation in fact for the statement, and that the correspondent was prompted by personal enmity. It was written in such a manner that it was impossible to detect its falsity.

The Babies Cry for it

And the old folks laugh when they find that the pleasant California Liquid Fruit remedy, Syrup of Figs, is more easily taken and more beneficial in its action than bitter nauseous medicines. It strengthens the stomach and bowels. For sale in 50c and \$1 bottles.

We heard of a very disgraceful occurrence a few days ago. A young man came to Louisa and procured license to marry a girl living a few miles from this place. The wedding was to have occurred that evening, but when the time came the prospective groom was so beastly drunk that the ceremony had to be postponed. The postnuptial should be perpetual.

Lotis might have a number of enterprisers established within her limits if the citizens would use some extra efforts and offer fair inducements. This is what is necessary to cause a town to grow and become one of importance, as has been, and is constantly being demonstrated by other towns. These that offer inducements and push their claims prosper, and those that wait for enterprisers and business to find them "get left." The time has arrived in the history of this country when selfish and unenterprising towns each day find themselves further "down the list."

My son, John L. Moore, was taken sick with malaria fever on June 5th and was sick until Sept. 22d. He was unsuccessfully treated by skillful physicians, and after trying every remedy thought of, I was induced by W. T. Evans to try a bottle of Sparks' Perfect Health. I bought one bottle and in less than one week he was able to go about, and is now in Perfect Health. I recommend this to all who are afflicted with any disease for which it is recommended.

For sale by W. T. Evans, Louisa, Ky.

A Charleston W. Va. special says: "Cap. Hatfield and his father, Anse Hatfield, who are most prominent in the famous Hatfield-McCoy vendetta, of Logan county, this State and Pike county, Ky., are endeavoring to make terms with the officers and all others, and bury the hatchet. Cap. and Anse were in the town of Logan Co. H. the first of the week, and stated that they wanted peace, would go into terms looking to a settlement if allowed to be acquitted. They were heavily armed, and notwithstanding the detectives and officers made no attempt to arrest them. What will come out of the proposition is not known."

Are we to have Another War?

Some political prophets aver that we shall, as that as only the battle waged by method science against disease will never cease until we arrive at that utopian epoch when the human family shall cease to be afflicted with bodily ailments. One of the most potent weapons which the armory of medicine furnishes, is Hostetter's Stomach Bitters, which is of special utility as a family remedy, and is adapted to the immediate relief and ultimate cure of those disorders of the stomach, liver and bowels which are of common occurrence. Indigestion, biliousness and constipation are inoperable complaints, and these ailments are completely eradicated by the Bitters. But the remedial scope of this superlatively wholesome and gentle medicine takes in also nervous ailments, rheumatism and kidney troubles, its action in these, as in the other complaints, being characterized by unequalled thoroughness.

The Ciceroonian Literary Society at this place, which has a membership of about forty, is prospering finely. It is doing excellent work and the members are being greatly benefited by the exercises. The leading topics of the day are able and thoroughly discussed.

This society, which is an outcome of the educational institution established at this place by Professor Elam, is only one of the many good works set in operation by the same influence. All connected with this society and the institution are expecting to make still greater progress in the future than they have made in the past.

We shall write you full particulars from time to time, which we hope you will kindly publish.
